

**Benefits**

- Pleated style for large surface area.
- Ideal for pre-filtration in high sediment applications.
- Flow rates up to 220 litres per minute.
- Available in 1, 5, 10, 20, 30, 50, 75 microns.
- 3 length options – 5, 10, 20 inch.
- 2 diameter options – Standard, Maxi Plus.
- Washable models available.
- Temperature ratings up to 63°C.

Puretec Pleated sediment cartridges are used where large surface area filtration is required, in high dirt holding capacity applications. Available in cellulose, polyester and polypropylene materials depending on requirements. The PL Series are used for sediment, scale and rust removal and have the advantage of low pressure drops and less flow restriction than comparable cartridges.
