

FP SERIES

STANDARD FILTER HOUSINGS

FP10C

FP10B

Benefits

- Compact, durable, economical design.
- Easy to install.
- Ideal for a wide range of applications.
- Available in 5, 10, 20 inch heights.
- Connection sizes of 1/4, 3/8, 1/2, 3/4 inch.
- Suitable for flow rates up to 76 litres per minute.

Applications

- Drinking water
- Wholehouse filtration
- Food Service
- Commercial
- Industrial
- Agricultural
- Liquid Filtration

Puretec FP Series range of housings are constructed from FDA approved materials polypropylene and SAN, for equal strength in clear and blue bowls. The unique advantage with this versatile range of housings is that they are both compact and durable enough to use anywhere in so many different situations, whether it be at home, work or in a industrial process. The FP Series are capable of pressures up to 900kpa at 52°C and accept a broad range of Puretec cartridges to suit your requirements. Clear bowl housings are ideal for monitoring filter condition, but must be protected from direct sunlight to prevent bacterial growth.

Code	Size inches	Connection	Description	Purchase Qty (ea) as required	Flow lpm	Qty	List (ea) Incl.GST
FP5M	5"	1/4 inch	white bowl		38	12	44.66

MP SERIES

MAXI PLUS™ HIGH CAPACITY HOUSINGS

MB101B

Benefits

- High capacity housings for flow rates up to 180 litres per minute.
- Robust design for longevity and reliability.
- Compact and economical, ideal for duplex systems.
- Available in 10, 20 inch heights.
- Connection sizes of 1, 1 1/2 inch.

Applications

- Wholehouse filtration
- Food Service
- Food and Beverage
- Aquaculture
- Plating solutions
- EDM Machines
- Process Water
- Nozzle/Sprayer protection
- Pump protection
- Spas/Swimming pools
- Office Blocks

The Puretec MP Series high capacity housings are both durable and reliable for the most demanding of applications. Multiples of MP housings can be manifolded together for gradual filtration, higher flow rates or higher contaminant filtration capacity. Complete manifolded assemblies can be designed and supplied. The MP Series are capable of pressures up to 900kpa at 52°C and accept a broad range of Maxi Plus MP cartridges to suit your requirements.
