

QT12 Quick Twist Drinking Water System

The QT12 Drinking Water System incorporates all the latest filtration technology in one system.

The Puretec QT12 fits in any décor and under most benches. It can be mounted horizontally so that no shelves need to be cut or moved. Further, there is no need to call a plumber when the cartridge needs to be changed – it simply needs to be twisted and automatic valve in the filter head shuts the water off until the new cartridge is installed.

Using premium grade carbon filtration, the QT12 reduces chlorine, taste, odour, chemicals, sediment and cysts, leaving all vital minerals.

System Includes: Plumbing kit, long reach faucet (DFU130), cartridge (QT12R), valve in head, pressure limiting/water hammer/flow/non-return valve, cyst reduction.

- 1 micron rating for 99% Giardia & Cryptosporidium, cyst reduction.
- Valve-in-head means no mess, quick twist, and hygienic cartridge change.
- Great tasting water at your fingertips.
- System is compact and easy to install.
- Can be mounted horizontally.
- Cartridge replacement is simple. **Do it yourself.** Its as easy as changing a light bulb.
- Cartridge is compact, robust and easily transportable by mail.
- Replacement cartridges are available Australia Wide.
- Fluoride & vital minerals are not removed during filtration process, an added benefit for families.
